### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: No prior art discloses or renders obvious a method for installing a heat exchange pipe loop in a borehole as claimed wherein a sonic drill head is provided to the upper end of the casing. Grout is introduced into the casing around the heat exchange pipe loop and the casing is extracted from the borehole. The use of a sonic drill head in a method as claimed is not disclosed or suggested by the prior art. The provision of a sonic drill head at the upper end of the casing facilitates the drilling of the borehole and the removal of the casing thereafter, thus providing several advantages as mentioned in the instant specification (e.g., paragraph bridging pages 13-14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
